SKILLS SUMMARY

Tools: MS-Office, Python, My SQL, Tableau, Canva, Power BI

Power Skills: Communication, Analytical thinking, Adaptability

PROJECTS

Delhivery Audit & Shipment Analytics Dashboard | Power BI — Jun 2025

- Developed a 6-page Power BI dashboard by analyzing 27,951+ shipment records, providing insights into audit performance, shipment aging, and operational efficiency
- Designed 20+ interactive visuals and 15+ DAX measures with dynamic slicers, reducing manual reporting effort by ~70%
- Analyzed client, dispatch center, product, and shipment status data to identify operational bottlenecks and support faster, data-driven decision-making

Uber Trip Demand Analysis & Forecasting | Python, ML — Feb 2025

- Cleaned and prepared over 4.5 million Uber ride records from New York City (6 months of data), organizing them by hour and using the past 24 hours of data to predict future ride demand
- Built and tested prediction model (Random Forest) testing 243 different setting combinations for model to find the most accurate one and avoid errors
- Achieved 90.4% prediction accuracy, effectively capturing time-based patterns like daily and weekly ride demand changes

Affiliate Marketing – August Biosciences | LPU — Dec 2025

- Executed performance-based affiliate marketing campaigns for August Biosciences, driving targeted traffic and lead generation
- Analyzed campaign KPIs (CTR, conversions, ROI) to optimize funnel performance and improve marketing efficiency
- Achieved 100%(Rs.10000+) of assigned sales target by successfully selling 10+ products through affiliate marketing campaigns

INTERNSHIP

Delhivery Limited | Nagpur, Maharashtra — May 2026 – June 2026

Hub Operation Intern – Problem Solving Team (PST)

- Investigated shipment exceptions by tracing waybills and validating product details to resolve missing and aging shipment cases across hub operations
- Performed weekly audit reconciliation by comparing pre- and post-audit shipment records, identifying inventory discrepancies and supporting accurate shipment tracking
- Collaborated with hub operations teams to analyze operational data, streamline exception resolution and improve shipment visibility through data-driven insights

Unified Mentor Pvt. Ltd. | Gurugram, Haryana — Dec 2025 – Mar 2026

Business Analyst Intern

- Worked on data analysis and business problem-solving tasks during 3-months internship
- Assisted in preparing reports, interpreting insights, and supporting decision-making activities
- Gain practical exposure to analytical tools and real-world business workflows
